Colonel W. P. Tomlinson of Topeka, was in the city yesterday feeling his way on the resubmission question. He found that Wichita on the question of prohibition was a town after his own heart. The colonel is a little gayer than he was, and has taken on some emboupoint but he is in good health and he is still battling for the cause of resubmission as valiantly as ever. Colonel Tomlinson is one of the very best known anti-prohibitionists in the country. He has campaigned eleven states against the country. He has campaigned eleven states against the country. There are few practical garments among the so-called reform suits. Most of them are coarse in texture, clumsy in design and as graceless as a 57% diving suit.
